#### Notes

1. Each class of boat should read across the page left to right in their row for how far in front (or behind(-)) a particular class of boat they should be in order to beat it.
2. Times are for a 60 minute race - so, for example, a K6: has to finish 11 minutes ahead of a Laser 2000 in an hour long race to win on handicap; could finish 7 minutes behind an RS800 in an hour long race and still win on handicap etc
3. Times are to the nearest minute so are only a guide.
